

My name is Abdou 38 years old from Tangier, Morocco

I'm single and I have been in a wheelchair for 20 years due to an accident that happened to me
.on the beach in 2002 when I was 17 years old

I broke my neck and spine

I learned about this site when I was searching on Google for jobs for people with special needs

I hope to find a remote job so that I can help my mother with my special needs, such as food and
medical expenses

I want to have an income so that I can depend on myself and be able to buy my needs with my
own money
