## WORK EXPERIENCE

### Maintenance Technician II

American Woodmark Corporation

January 2022 to Present

Responsible for preventative maintenance on production/assembly line equipment and repairing machines. Handles additional work on the building and grounds. Assists Controls Engineers with PLC programming and HMI upkeep.

### Adjunct Instructor

Ivy Tech Community College

July 2023 to Present

Volunteered to take over two advanced classes (Programmable Logic Controllers [PLC] II and PLC III) for the first half of Summer 2023 semester due to short staffing. Made an extra effort to make all students feel attended to and assist where needed and when it was wanted. Had no issues navigating the grading programs, and any issues where a student's grades would not update or the e-learning was inaccessible were solved promptly. Was not afraid to speak up and ask for assistance from leadership when a serious issue arose.

### Aerospace Maintenance Crew Chief

United States Air Force

January 2012 to January 2018

Maintained a fleet of 32 KC-10A jets; included scheduled maintenance, inspections before/after flight, emergency repairs, in-flight troubleshooting. Led teams during week-long maintenance rotations, coordinated with department leads on task management. Developed a rotation system to decrease delayed discrepancies and increase mission capability by 36%. Special duty assignment for one year supplementing administrative services; Created various professional letters for members' achievements, reprimands, appointments, retirement, and more. Handled financial discrepancies and utilized Excel to organize upcoming personnel changes and squadron budgeting schedules.

## PROFESSIONAL SUMMARY

Creative and collaborative, always looking to improve and streamline a process no matter what the task is. Constantly interested in learning new techniques and gathers insight from others. Specializes with electrical components and computer programs.

---
