Work Experience

Business Owner

Renznetcafe - Lingayen

December 2015 to Present

ABOUT ME:

I'm a person with visual disability since birth, a lifetime barrier that affected my growth. I did not able to finish a 4 year course because of my condition and only capable to finish a 2 year course just for me to have education, my disability is my burden since childhood, i cant see a world that a normal person sees, but i embrace it and loved it. Because of my disability, I'm not able to get a real job because i always fear that my disability affects the job interviews and no one will hire me, since my parents can provide my needs and no hard reasons for me to strive to get a job (which I'm not proud of) with their help, with my own knowledge, I managed to run my own business from year 2015 to present, and that serves my own version of professionalism and as an oriented customer service provider. I know that I don't have any outdoor job experience, but if you will hire me, i will applied what i have learn in running business and I will give my best to contribute to your respected company and be a hard working and responsible employee.
